UX/UI & PRODUCT DESIGNER

SUMMARY

Product and UX/UI Designer with 5+ years shipping web, mobile, and AI products end-to-end across healthcare, retail, fintech, and more. Turns research and complex requirements into clear flows, prototypes, and accessible, high-craft UI. Combines design craft with product thinking to solve problems and deliver real impact.

SKILLS

Domains: Healthcare, Retail & eCommerce, Fintech & Banking, AI & Conversational, SaaS, Life Sciences

Design: Interaction Design, Visual Design, Information Architecture, Wireframing, Prototyping, Storyboarding, User Flows, Journey Mapping, Design Systems, Responsive Web & Mobile, Accessibility (WCAG 2.2 AA)

Product & Systems: Product Thinking, Systems Thinking, Scalable Experience Patterns, UX Strategy, Design Thinking

Research: User Research, Usability Testing, Heuristic Evaluation, A/B Testing, User Interviews, Qualitative & Quantitative Analysis

Tools & Tech: Figma, FigJam, FlutterFlow, Adobe Suite (XD, Illustrator, Photoshop), Sketch, Framer, Google Gen AI, React

Collaboration & Leadership: Cross-functional Leadership, Stakeholder & Client Communication, Design Mentorship, Developer Handoff, Agile

WORK EXPERIENCE

Cognizant (Client: Google)

GenAI Analyst / UX Design Lead

Austin, Texas
Jul 2024 - Present

- Led end-to-end design delivery as the primary point of contact between clients, cross-functional teams, and engineering, translating design decisions into clear technical direction.
- Architected an enterprise design system in Figma for a 12-person cross-functional team, standardizing components to speed design-to-development handoff.
- Designed an AI travel concierge end-to-end conversational UI, personalized recommendations, and dynamic itinerary flows and partnered with engineers to ship responsive, production-ready components.
- Produced 60+ demos and 40+ prototypes, storyboards, wireframes, and interactive flows in Figma, Adobe Suite, FlutterFlow, and Google Gen AI.
- Designed omnichannel store and membership flows for enterprise clients including Walgreens, Mondelez, and Uber.

Arizona State University

Teaching Assistant – UX & Visual Design

Tempe, Arizona
Aug 2023 - May 2024

- Coached 40+ undergraduates on UI/UX, interaction design, and visual communication, improving project scores by an average of 15%.
- Led design-thinking workshops integrating user research, usability testing, and rapid prototyping in Figma.
- Delivered weekly critiques and guidance, strengthening student craft across the design process.

Icarus Nova

UI/UX Designer

Bengaluru, India
Dec 2021 - Jun 2022

- Designed and launched a responsive patient data web app across web and mobile in Figma, serving 50+ providers and cutting data retrieval time by 30%.
- Ran usability tests with 20+ clinicians and refined the UI for accessibility and ease of use, increasing engagement by 20%.
- Built reusable UI libraries, component standards, and documentation for consistency and scalable handoff.

D By T Dynamics

Product Designer & Researcher

Chennai, India
Jan 2021 - Dec 2021

- Conducted 47+ user interviews and qualitative and quantitative research to improve EV product usability.
- Performed market and competitor analysis with cross-functional teams to shape new product concepts.
- Presented design rationale in weekly sprint reviews to keep engineering and marketing aligned.

EDUCATION

Arizona State University

Master of Science – Human Computer Interaction

Phoenix, Arizona
Aug 2022 - May 2024

PES University

Bachelor of Design – Product Design

Bengaluru, India
Aug 2017 - May 2021
